Outcome: The invited talk was interesting and the discussion session that followed the talk was productive. The students gained valuable insights into the current challenges faced by the country in the context of food safety. Also, discussed the carrier opportunities in FSSAI in general. Further, discussed on the current research activities and funding options related to Food Technology. This talk was very useful for students in FT and Food Safety related subjects handling faculty in KTU curriculum.

On the occasion of world food safety day, the students of Food Technology designed posters to revive the ethos of the occasion.
